EXPERIENCE

Startup Remote
Co-Founder Apr 2026 – Sept 2026

- Launched and scaled an umbrella project under the startup, securing distribution across 11 partner communities (20,000+ combined members) and generating $75K in revenue.
- Defined an ideal customer profile (ICP), tracked leads in Notion, and ran targeted cold-to-warm outreach, landing the platform's first 15 clients from 21 prospects (71% conversion) and raising $4,750.
- Scaled the platform to 100+ paying clients and $1.1M+ in GMV by September 2026, moving into an advisory role after the first three months.
- Joined as Co-Founder after pair-programming with the founder in Python during beta, resolving bugs and advising on operations.

The Staten Island Foundation NY
Records Assistant Jul 2026 – Aug 2026

- Researched and compiled due-diligence summary reports on 20+ nonprofit grant applicants across education, health, community services, and arts & culture.
- Reviewed each applicant's IRS Form 990 filings, board leadership, and program data on Candid, along with past proposals and grant reports, to verify prior-year activity and flag leadership changes.

Richmond County Black and Minority Chamber of Commerce NY
Full-Stack Developer Jul 2025 – Sept 2025

- Developed a searchable directory of Black and minority-owned businesses with React and Supabase, integrating public APIs.
- Spearheaded the Chamber's small-business awareness initiative, integrating PostHog analytics to track engagement and conversion.
- Audited and validated 110+ business profiles for the Chamber's marketing campaigns.

LEADERSHIP & PROJECTS

Baruch CEO baruchceo.com
Data and Technology Lead Oct 2026 – Present

- Redesigned the entrepreneurship club's website in Next.js and TypeScript, putting events, news, member ventures, and award results in one place.

Staten Island Technical High School NY
Co-President, Game Development Club Oct 2023 – Jun 2025

- Co-founded and led a 25-member, application-only club, building the application and selection process.
- Created weekly interactive lesson plans in Unreal Engine and co-presented them.
